

## **Eyeball**

## **Meat Puppets**

Four skulls in a square of bushes  
Fireworks now and all were wed  
They loved and walked and fed on garbage  
Moved pool tables with bad backs

Since I hurt myself, I feel so much better  
Suck my eyeball

Alcohol was pouring through the victims  
As on the rocks they laid their breath  
Alcohol was fed to the mummies  
As they all were happily led to death

Take yourself a photo of my backside  
Printed up on the front page  
Not too sweet, not too strong  
Pins, combs, picks and magic sage
