

## Fly Like The Wind

Meat Puppets

You can run but you'll never  
get away from the smell of the garbage  
and there's crap on your shoes  
and the thought of it is making you happy  
and the seeds all explode  
and the aphids have eaten your garden  
and they're all so confused  
and the thought of it really takes little

Fly like the wind, right on  
and remember slave,  
that nobody asked you  
Fly like the wind, right on  
and remain on your knees  
before your raping master

I'm right now, and I'm also  
exploring the worlds of the future  
and the mall of my choice,  
I am shopping and making a purchase

Fly like the wind, right on  
and remember slave,  
that nobody asked you  
Fly like the wind, right on  
and remain on your knees  
before your raping master

You can run but you'll never  
get away from the smell of the garbage  
and there's crap on your shoes  
and the smell of it is making you happy

Fly like the wind, right on  
and remember slave,  
that nobody asked you  
Fly like the wind, right on  
and remain on your knees  
before your raping master
