

## Go To Your Head

Meat Puppets

You say you want nothing, that's alright  
'Cause nothing is easy and nothing'll last you all night  
In pieces and pieces and pieces go under the spell  
They say you must be well

Let it go to your head  
Say you want nothing and kill you instead  
Let it go to your head  
Say you want nothing

Night once again and the dust-devils rise  
In dreams their fingers pry open your eyes  
Little by little by little it all goes to hell  
They say you must be well

Let it go to your head  
Say you want nothing and kill you instead  
Let it go to your head  
Say you want nothing

Not sayin nothing, that hasn't been said  
And nothing is easy to say so I'll say it instead  
Little by little by little take down the light  
They say you must be right

Let it go to your head  
Say you want nothing and kill you instead  
Let it go to your head  
Say you want nothing

Let it go to your head  
Say you want nothing and kill you instead  
Let it go to your head  
Say you want nothing
