

## Nightcap

## Meat Puppets

They hung the grapes upon the line  
In '51 or '52  
And they could see the sun  
Shining all over  
They painted pictures of the vines  
And placed them out in open view  
And they could see the sun  
Shining all over

One more time for another one  
This old line for another one

They sent transmissions through the wire  
Till they could feel a volt or two  
And they could see the sparks  
Flying all over  
They took the grapes and made a fire  
And poured them out a glass or two  
And they could see the sparks  
Flying all over

One more time for another one  
This old line for another one  
One more time for another one  
This old line for another one

They hung the grapes upon the line  
In '51 or '52  
And they could see the sun  
Shining all over  
They painted pictures of the vines  
And placed them out in open view  
And they could see the sun  
Shining all over

One more time for another one  
This old line for another one  
One more time for another one  
This old line for another one
