

# Division Through Distance

Mechina

Shadows of giants  
Bring shade to the sea  
Mechanical life  
For all eyes to see

When you look to the heavens  
Remember our plea  
For lasting peace  
Submit and believe

Fear us  
We are the hunter of kings  
Born with the blood of this titan machine  
Hear us  
Demons who hide and the gods that survived

As the distance continues to grow  
The thunder of ancient war echoes  
We come face to face with the frozen divide  
In time  
You will abide

The fear of control  
Dividing our breed  
A whirlwind of lies and ghostly deceit  
As we search through the heavens  
Remember our plea  
For lasting peace  
Submit and believe

Fear us  
We are the hunter of kings  
Born with the blood of this titan machine  
Hear us  
Demons who hide and the gods that survived

As the distance continues to grow  
The thunder of ancient war echoes  
We come face to face with the frozen divide  
In time  
You will abide

As the distance continues to grow  
The thunder of ancient war echoes  
We come face to face with the frozen divide  
In time  
You will abide
