

## For U

Medina

I'll be torn if you hear me now  
Tipping out like a ghost tonight  
Don't you know infinity?  
Side plots pleading you and me  
I'd paint your world in purple lights  
Find a way to work it out for you  
I'll take the sun on a trip to space  
Building up a shining place for you

For you, for you  
For you

You gotta hold on, just hold on, just hold on  
And don't you let go, don't let go, don't let go  
Don't you wanna go get in history?  
Baby, you and me, oh the you and me

I'm moving on St. Clement's Street  
Turning into a creeper freak  
Hey, whatever you like me to  
I'd do it all and it's for you, hey  
Just let me know what it will take  
To erase the one next day  
I build you an empire place  
Setting up in just one day

For you, for you  
For you

You gotta hold on, just hold on, just hold on  
And don't you let go, don't let go, don't let go  
Don't you wanna go get in history?  
Baby, you and me, oh the you and me

In another world, in another life  
I'll always be your girl, don't let me down tonight

For you  
For you

You gotta hold on, just hold on, just hold on  
And don't you let go, don't let go, don't let go  
Don't you wanna go get in history?  
Baby, you and me, oh the you and me

To never let go  
To never let go
