

Grass

Medina

If it lasted pure my mind, we laid up on my grass
Touch me, baby one more time
And make it ever lasted
It feels so good to be, you feel so good to me
It feel good, I'm so good
We got love that's so deep
It's so good
Baby, it feels so good

Hear the least thing aloud to me that I meant to be better
On this pressure for we can be, now I'm finally better
'Cause I was broken down, falling to the ground
Winter took my ground, now as we
Won't you fought me a time to see
That with you I am better

In the scratch is still my heart, I never wanna leave
Kiss my lips, don't ever stop, summer time just hit me
'Cause it's so good to be, you feel so good to me, it feel good
, I'm so good, we got love that's so deep
It's so good
Baby, it feels so good

Hear the least thing aloud to me that I meant to be better
On this pressure for we can be, now I'm finally better
'Cause I was broken down, falling to the ground
Winter took my ground, now as we
Won't you fought me a time to see
That with you I am better

Hear the least thing aloud to me that I meant to be better
On this pressure for we can be, now I'm finally better
'Cause I was broken down, falling to the ground
Winter took my ground, now as we
Won't you fought me a time to see
That with you I am better
