

In and out of Love

Medina

I'm dizzy
Ever since I met ya
I been thinking bout ya
Heart busy
Falling too fast for ya
Already adore ya

Tell me I'm not alone tonight
Tell me you'll woo me candle light
Say that I'm all you want tonight
Say that you'll hold me through the night

You got me inside out
Unravel my heart
You got me inside out
Falling seeing stars

Why do I feel like I'm falling in I'm falling in and out of love
Why do I feel like I'm falling in I'm falling in and out of love
Why do I feel like I'm falling in I'm falling in and out of love
Why do I feel like I'm falling in I'm falling in and out of love

It scares me
That I'm all up on
Can't get enough of you ohh
My prayers deep
Wanna be right for ya
And you to be right for me

Tell me I'm not alone tonight
Tell me you'll woo me candle light
Say that I'm all you want tonight
Say that you'll hold me through the night

You got me inside out
Unravel my heart
You got me inside out
Falling seeing stars

Why do I feel like I'm falling in I'm falling in and out of love
Why do I feel like I'm falling in I'm falling in and out of love
Why do I feel like I'm falling in I'm falling in and out of love
