

Day Forgives

Medium Build

When the sun comes up
And I'm ruined with regret
The day forgives, the day forgives
And out of all those nights
I wish I could forget
The day forgives, the day forgives

The day forgives everything I did
The day makes coffee
Sends me flowers and says my name
The day don't mind what I did now
The day's a friend
So, pick me up in the pouring rain

When the sun comes up
And I'm ruined with regret
The day forgives, the day forgives

The day forgives everything I did
The day makes coffee
Sends me flowers and says my name
The day don't mind what I did now
The day is a friend
So, pick me up in the pouring rain

When the sun comes up
And I'm ruined with regret
The day forgives, the day forgives
And out of all those wasted nights
I wish I could forget
The day forgives, the day forgives

The day forgives, the day forgives
The day forgives, the day forgives
