

## Faded Blue

Medium Build

We woke before the birds  
Hung a big fat loop around the park  
The sky gave up its dark for faded blue  
Barely said a word  
Each of us was tethered to a dog  
Sifting through the bog

I don't know what love is  
But I love this

Giggling on the couch  
Waiting for the drugs we took to take  
Hopeful they would make us someone new  
Staring at the stars  
Each of us was tangled round an arm  
Nathan played a song

I don't know what love is  
But I love this  
I don't know what love is  
But I love this

I don't know what love is  
But I love this
