

Knowing U Exist

Medium Build

Fuck, I just love laughing with you
The way your face gets all scrunched up
Fuck, I just love staring at you
When you're chewing on your tongue

I get anxious when the Sun goes down
Gotta get stoned so I can sleep
And when the nasty thoughts come rushing in to meet me
Knowing you exist takes a load off me

Fuck, I just love snacking with you
Seeing what you get
Fuck, I just love teasing on you
And calling you a bitch

I get heavy and I think too much
I get loud when I drink
And when the nasty thoughts come rushing in to meet me
Knowing you exist takes a load off me
Just knowing you exist takes a load off me

Hmm
