

## Never Told You

Medium Build

I told my friends  
I told their moms  
I must have told the whole damn school I wrote a shitty song  
I told the lord  
He told his son  
Jesus Christ I swear he told me "Nick, this girl's the one"  
The one thing I never thought to do was tell you

I never told you that I loved you  
I never told you what you mean  
And had I told you  
That I loved you  
Maybe you'd be with me

But I never told the truth  
All I told were lies  
You asked "babe is this forever?"  
I said "I'm just killing time"  
I never win  
I guess it's funny now  
How I crave those kind of words  
The kind I never managed out  
The kind of words you've always said to me  
Baby please

I never told you that I loved you  
I never told you what you mean  
And had I told you  
That I loved you  
Maybe you'd be with me  
But I never told you
