

# Relief

Medium Build

I am in love  
Maybe for the first time  
Maybe for the hundredth  
It feels like hearing your name  
In every store  
In every department  
It's salve on a burn  
The ease of an ache  
I forgot that I had  
It's getting out of my seat  
Walking to the front  
And kneeling by the pulpit

I am relieved  
You are relief  
When you're with me  
I can breathe

I didn't know I had a hurt in my heart  
I didn't know I had a vacancy  
I couldn't tell how tired I was  
Until you put your arms around me  
Sometimes I wonder if I'm losing myself  
'Cause I got codependent tendencies  
You held my hand, you never asked me to change  
You just wanna be by me

I am relieved  
You are relief  
When you're with me  
I can breathe  
I can breathe  
I can breathe  
I can breathe

I can, I can, I can, I can  
I can, I can, I can breathe, breathe  
I can, I can, I can, I can  
I can, I can  
I can, I can breathe  
I can  
I can breathe  
Oh, I can  
I can breathe
