

So Sad

Medium Build

So sad
Damn
Girl, where you been
I've been waiting for you
Waiting for a minute

So sad
Damn
Girl, where you been
I've been waiting for you
Waiting for a minute

So sad
Damn
Girl, where you been
I've been waiting for you
Waiting for a minute

So sad
Damn
Girl, where you been
I've been waiting for you
Waiting for a minute

Wake up this morning
And I reach for my phone
Try not to text you
I'm good sleeping alone
I got my high beams on
I got my high beams on

Since you left my whole world went gray
I used to drink, I quit the drink
I quit driving with my high beams on
I got my high beams on

And I'm so sad without you
Joy, where did you go?
Girl, tell me where you
Where you run off to

And I'm so sad without you
Joy, where did you go?
Girl, tell me where you
Where you run off to

So sad
So sad
So sad
So sad
So sad
So sad
So sad
So sad

And I'm so sad without you
Joy, where did you go?

Girl, tell me where you
Where you run off to

And I'm so sad without you
Joy, where did you go?
Girl, tell me where you
Where you run off to

And I'm so sad without you
Joy, where did you go?
Girl, tell me where you
Where you run off to

And I'm so sad without you
Joy, where did you go?
Girl, tell me where you
Where you run off to

So sad
Damn
Girl, where you been
I've been waiting for you
Waiting for a minute

So sad
Damn
Girl, where you been
I've been waiting for you
Waiting for a minute

So sad
Damn
Girl, where you been
I've been waiting for you
Waiting for a minute

So sad

I've been waiting for you
Waiting for a minute
