

Something Is Coming

Medium Build

I can't breathe
I feel something is coming
I can't sleep
I feel something is coming

Oh baby baby
This world's always been crazy
But now everyone around me wants to die

Oh baby baby
This world's always been crazy
But now everyone around me wants to die

I can't breathe
I feel something is coming
I can't sleep
I feel something is coming

Oh baby baby
This world's always been crazy
But now everyone around me wants to die

Oh baby baby
This world's always been crazy
But now everyone around me wants to die

I turn my phone off
Try to shut down
You know that makes them
Want you even harder now

I turn my phone off
Try to shut down
You know that makes them
Want you even harder now

Oh baby baby
This world's always been crazy
But now everyone around me wants to die

Oh baby baby
This world's always been crazy
But now everyone around me wants to die

I turn my phone off
Try to shut down
You know that makes them
Want you even harder now

I turn my phone off
Try to shut down
You know that makes them
Want you even harder now
