

# Take It

Meduza

Take that chance as long as you get it  
Use your mind before you forget it

Take that chance as long as you get it  
Use your mind before you forget it  
Hold on to this line as a critic  
Feel this vibe 'cause I like to set it

Take that chance as long as you get it  
Take that chance as long as you get it  
Take that chance as long as you get it  
Use your mind before you forget it

Take that chance as long as you get it  
Hold on to this line as a critic  
Use your mind before you forget it  
At this pace you're dancing, I bet it

Take that chance as long as you get it  
Take that chance as long as you get it  
Take that chance as long as you get it  
Hold on to this line as a critic

Take that chance as long as you get it  
Use your mind before you forget it  
Hold on to this line as a critic  
'Cause a new day breaks the dawn

Take that chance as long as you get it  
Use your mind before you forget it  
Feel this vibe 'cause I like to set it  
At this pace you're dancing, I bet it  
Hold on to this line as a critic  
'Cause a new day breaks the dawn

Take that chance, take that chance  
Take that chance, take that chance  
Take that chance, take that chance  
Take that chance, take that chance

Take that chance as long as you get it  
Use your mind before you forget it  
Hold on to this line as a critic  
Feel this vibe 'cause I like to set it  
At this pace you're dancing, I bet it  
Take that chance as long as you get it  
Hold on to this line as a critic  
'Cause a new day breaks the dawn
