

# Patience

Meekz

That's Chucks

Some shit I only say to myself (Yo)  
Like, "Don't be spendin' too much generation wealth"  
Ayo, I'm deep in the fire, got me prayin' for help (Prayin')  
Some things I only say to myself  
Some days I gotta sit and pray to myself  
I know somebody out there is probably waitin' for help  
You can be patient or gon' take it, only wait on yourself  
A heavy load on my back, I'm puttin' weight on myself (Heavy)

I can only say what I've seen or say what I felt  
Keep goin' hard (Hard)  
I played it smart and played the cards I was dealt  
Some things I sit and say to myself (Free the mandem)  
Ayo, I think about my mates in the cell  
And for the homies up in heaven, know you put us through hell (Rest in peace  
)  
But we shouldn't dwell  
I might bust a dual (Bust that)  
And buy some property for me and another to sell (Haha)  
Ayo, this story's insane, that's another to tell (Mad)  
I was runnin' from jail, use to cuddle your girl  
Speak it how it is, you was my brother as well (Fuck you)  
How couldn't I tell?  
Actin' like butter wouldn't melt  
All this pain that I felt, guess I come up myself (The come up)  
Like Granny would've tell me, "Fix up your jacket and pull up your belt"  
"Or forever we'll be stuck on the shelf"  
(Fix up your jacket and pull up your belt)  
(Or forever we'll be stuck on the shelf)  
Some shit that really crosses my mind  
How many young bosses have died?  
Some shit that crosses my mind  
All these wins and the losses are mine  
The good news and the gossip are mine  
The day I told me to shine, I put it all on the line (All of it)  
Literally put it all on the line  
I need all of the shine (All of it)  
I think about it all of the time  
My flows water and ice (Water)  
So we created all of my rhymes (Hahaha)  
You couldn't walk in my shoes, but let me take you on a little walk in my li  
fe (Ay, come with me, come with me, come with me)  
Sometimes I hear someone talkin' 'bout mine  
Get it all and divide, split all of the pies  
But you were negative vibes, you can't step in my life  
You can't step in my shoes  
Even the ones I use just to step on my white  
'Cause I'm the treacherous type  
And I can never chill in my life  
'Cause mumzy told me, "Go and play with the bus or go get on your bike" (Rea  
l shit)  
I gotta' get what I like  
Now I just manifest dreams when I get on the mic  
I ain't into the hype, I'm ahead of my time  
This some shit I gotta get off my mind

Shit I gotta get off my mind  
(I ain't into the hype, I'm ahead of my time)  
(This some shit I gotta get off my mind)
