

Scenery

Meekz

I change the scene quick, change the scenery
You know the score if you been with me
It ain't a secret, but she swore me to secrecy
Said secretly she feelin' me
She wanna cuddle me, fuck me, hug me
And get deep with me
Told her slow down, go down
And be a freak for me
Restaurant dinners and go to eat with me
Flights and holidays on the beach with me
She don't know how I'm feelin', not eatin' or sleepin'
I got this heat with me
Came from the bottom, the mud
I got the streets in me
They musta got it off of luck or shook if they're not feelin' m
e
Easy to me, I do it easily
I got my G's with me

I changed the world with these flows and I ain't shown 'em my f
ace yet
These rappers doin' all sorts to capture my paycheck
Say less, I do what I does, they make less
That's how we worth more in the long run, that's longev'
And I be here with the last ones left

I change the scene quick, change the scenery
You know the score if you been with me
I mean, it ain't a secret, but she swore me to secrecy
Said secretly she feelin' me
