

I Made This Title Really Long Because Ada Asked Me To

Meet Me @ The Altar

Stay awhile
Before the sun sets
And we will remember how
We used to dive off the deep end
But that window's closed
(There is a whole new world for us to roam)
I hope you know
(You are exactly where I've made my home)

And what if I told you I'd never leave you
Here in this world alone
And that I'd stay forever for as long as you need me to
And what if I told you I'd always save you
When there's nowhere to go
Just stay with me tonight
And we will be alright

They say fake it til you make it
But honestly I always hated
Not being brave enough
To stand up to the truth
The truth is the truth hurts
Good doesn't stay good forever
It doesn't mean that we'll never live

And what if I told you I'd never leave you
Here in this world alone
And that I'd stay forever for as long as you need me to
And what if I told you I'd always save you
When there's nowhere to go
Just stay with me tonight
And we will be alright

And what if I told you I'd never leave you
Here in this world alone
And that I'd stay forever for as long as you need me to
And what if I told you I'd always save you
When there's nowhere to go
Just stay with me tonight
And we will be alright
