

# Mapped Out

Meet Me @ The Altar

Take in, take, take in my surroundings  
It's unfamiliar  
Now I'm, now, now I'm second-guessing  
What I remember  
Over here, over there, I don't know  
How to find which way I should go  
Make up, make up scenarios  
To make myself feel better

How did I get here? It's not mapped out  
Can I find my own way out?  
Hate to say that I'm lost right now  
I gotta keep searching

I wish, I wish I could make my way back to my memories  
Leaving, leaving this forest I have wandered in is a dream  
Am I trapped? Is it true? Am I doomed?  
Do I have what it takes to get through?  
Running, running with no direction  
Such pointless fleeting

How did I get here? It's not mapped out  
Can I find my own way out?  
Hate to say that I'm lost right now  
I gotta keep searching  
How did I get here? It's not mapped out  
Can I find my own way out?  
Hate to say that I'm lost right now  
I gotta keep searching

I gotta keep searching  
Searching  
I gotta keep searching  
Searching  
Searching  
Ooh-ooh-ooh-ooh, oh, oh

How did I get here? It's not mapped out  
Can I find my own way out?  
Hate to say that I'm lost right now  
I gotta keep searching  
How did I get here? It's not mapped out  
Can I find my own way out?  
Hate to say that I'm lost right now  
I gotta keep searching
