

Rocket Science

Meet Me @ The Altar

Stop putting off what you always delay
Stuck cause tomorrow is never today
Caught in a loop that keeps hitting replay

Why not believe in yourself for a change?
Don't be afraid to let go of the pain
Flowers only bloom if you get through the rain

Focus your mind on one thing at a time
You're gonna make it to the finish line
Nothing's impossible if you decide
You'll realize your dreams aren't so far away

It isn't rocket science
Don't overthink what isn't meant to be so hard
I know part of you is scared of trying
But don't hold back or you'll regret you didn't start
Taking that risk
Start learning to live
Start doing exactly what you want
It isn't rocket science
Life isn't meant to be so hard

Trust me when I say I've been there before
Thought I should settle for less, wanted more
I know the feeling of being unsure

But looking back I'm so glad I got out
I can't believe it but look at me now
Proof it can happen, so aim for the clouds

Focus your mind on one thing at a time
You're gonna make it to the finish line
Nothing's impossible if you decide
You'll realize your dreams aren't so far away

It isn't rocket science
Don't overthink what isn't meant to be so hard
I know part of you is scared of trying
But don't hold back or you'll regret you didn't start
Taking that risk
Start learning to live
Start doing exactly what you want
It isn't rocket science
Life isn't meant to be so hard

Anything is possible
Everything is possible
Anything is possible
Everything is possible

Anything is possible
Everything is possible
Anything is possible
Everything is

It isn't rocket science

Don't overthink what isn't meant to be so hard
I know part of you is scared of trying
But don't hold back or you'll regret you didn't start
Taking that risk
Start learning to live
Start doing exactly what you want
It isn't rocket science
Life isn't meant to be so hard
