

## Same Language

Meet Me @ The Altar

Lately  
When I move my lips  
You just hear blah blah blah  
I'm sick of it  
I don't care  
What your story is  
You should understand  
I'm over it

Hello in there Mr. I Don't Care  
I've had better conversations with my wall and my dog  
Hello is anybody in there?  
Hello is anybody in there?

Why don't, why don't you hear what I'm saying?  
Clearly we ain't speaking the same language  
You think, you think we're good and that's dangerous  
Clearly we ain't speaking the same language  
But I bet you understand goodbye  
I bet you understand goodnight  
Get it through your head  
Bye, bye, bye, bye, bye

I say maybe we're not for each other  
It goes in one ear and out the other  
Knew something was missing  
Now I keep my distance  
You don't ever listen, listen, listen

Why don't, why don't you hear what I'm saying?  
Clearly we ain't speaking the same language  
You think, you think we're good and that's dangerous  
Clearly we ain't speaking the same language  
But I bet you understand goodbye  
I bet you understand goodnight  
Get it through your head  
Bye, bye, bye, bye, bye

Why don't, why don't you hear what I'm saying?  
Clearly we ain't speaking the same language  
You think, you think we're good and that's dangerous  
Clearly we ain't speaking the same language  
But I bet you understand goodbye  
I bet you understand goodnight  
Get it through your head  
Bye, bye, bye, bye bye

Bye bye  
Bye, bye, bye, bye  
Get it through your head  
Bye, bye, bye, bye bye
