

Ghost

Meg & Dia

Half moon high and I wanna take a hit
I gave you up but I don't know how to quit
On my way, but I've got nowhere to be
I hear your name as it whispers through the leaves

I know it's done but I wanna stay
I know it's done but I wanna...

Still got that ghost
In my blood and in my bones
Never one to let things go
But I'm trying, I'm trying
Got too close
Woke up in my head alone
Never one to let things go
But I'm trying, I'm trying

Blue lights swim but I never get that far
Come up for air and you pull me back to the start
In the dream I'm a skeleton again
The gloves are off and I'm shaking into your skin

I know it's done but I wanna stay
I know it's done but I wanna...

Still got that ghost
In my blood and in my bones
Never one to let things go
But I'm trying, I'm trying
Got too close
Woke up in my head alone
Never one to let things go
But I'm trying, I'm trying

On my way, but I've got nowhere to be
If you moved along, can you show me how to leave

Still got that ghost
In my blood and in my bones
Never one to let things go
But I'm trying, I'm trying
Got too close
Woke up in my head alone
Never one to let things go
But I'm trying, I'm trying
