Meg & Dia

We're sailing on an ocean heading for nowhere [2x]

Across the city
Left my car in the lot
Should have follow electricity?
So I can see the stars

We're sailing on an ocean heading for nowhere [2x]
And I don't care

I ran out to the seaside
Stripped of all my clothes
Yeah, laugh is just a short ride
I let it overflow
Whoa, whoa, whoa
And the clock is ticking
It's not slowing down
It's been a bit late but
To change your life around

We're sailing on an ocean heading for nowhere [3x]
And I don't care

Do what you want to do [4x]
Love who you want to love
Do what you want to do [2x]
Love who you want to love
Do what you want to do [2x]
Love who you want to love

We're sailing on an ocean heading for nowhere [10x]
Do what you want to do [4x]
