

## Lungs

Meg & Dia

Halos are hanging like a picture  
Sweetheart is pushed under the river  
Wake up, you're high off of a clean slate  
You're taking hits, just like a light weight  
Caught up, we're dust up in the twister  
Who knew a winner could be bitter  
I swore off every kind of dark vice  
Stopped chasing every kind of cheap high

Oh, I won't let go, let go of me  
I got these lungs inside my body, and it's still hard to breathe  
Oh, I won't let go, let go of me  
I got these lungs inside my body, and it's still hard to breathe  
Still hard to breathe

So tongue and cheek, say what you want to  
Give it a week, this shit will fall through  
It's always only temporary  
Most trauma's all hereditary

Oh, I won't let go, let go of me  
I got these lungs inside my body, and it's still hard to breathe  
Oh, I won't let go, let go of me  
I got these lungs inside my body, and it's still hard to breathe  
Still hard to breathe...

Cheat death, and now I'm a believer  
Half Asian, half overachiever  
I've got a legacy inside me  
It's gonna kill me or define me  
Know better than to take a short cut  
I never trusted any good luck  
I know that high is gonna find me  
I'm living for that silver lining

Oh, I won't let go, let go of me  
I got these lungs inside my body, and it's still hard to breathe  
Oh, I won't let go, let go of me  
I got these lungs inside my body (I got these lungs inside my body)  
Oh, I won't let go, let go of me  
I got these lungs inside my body, and it's still hard to breathe

Oh, I won't let go, let go of me  
I got these lungs inside my body, and it's still hard to breath  
e  
Still hard to breathe
