

# Yours

Meg & Dia

Heart in my hands  
Holding you close  
Falling so fast  
Where did the time go  
All that I am  
Under my clothes  
Take what I have  
My body and soul

And we no longer need to run  
Let's not fight what's in our blood

I had no say in this  
Knew it a moment in  
Never so sure  
You knew it before  
I was yours  
It was out of my hands  
You didn't have to ask  
Never so sure  
I knew it before  
I was yours  
I was yours  
I was yours

My only truth  
Was always you  
Time will move on  
We won't be changing  
Take what you want  
All of my days  
Summer on swing sets  
New Year's champagne

And we no longer need to run  
Let's not fight what's in our blood

I had no say in this  
Knew it a moment in  
Never so sure  
You knew it before  
I was yours  
It was out of my hands  
You didn't have to ask  
Never so sure  
I knew it before  
I was yours  
I was yours  
I was yours

And everything's changed since I met you  
The world drifts away till it's just two  
I had no say  
I had no say

I had no say in this  
Knew it a moment in

Never so sure  
You knew it before  
I was yours  
It was out of my hands  
You didn't have to ask  
Never so sure  
I knew it before  
I was yours
