

It's just something I can feel, feel, feel  
Everybody talks but don't ever keep it real, real, real  
Everybody talks

(Dub that)  
If it get weird tonight  
If you all in my ear tonight  
I ain't tryna hear it tonight, no  
(Dub that)  
So if it get weird tonight  
Let's just fall off the face  
Never see me again

'Cause I'm picky with my energy  
Yeah, I'm picky with my energy  
Yeah, I'm picky with my energy  
Yeah, I'm picky with my energy

I might go ghost, I might just fade away  
I need the most, I need it straight away  
I might go ghost 'cause I need my space  
And I don't rock with snakes, this pop shit's full of fake, yeah

(Dub that)  
If it get weird tonight  
If you all in my ear tonight  
I ain't tryna hear it tonight, no  
(Dub that)  
So if it get weird tonight  
Let's just fall off the face  
Never see me again

'Cause I'm picky with my energy  
Yeah, I'm picky with my energy  
Yeah, I'm picky with my energy  
Yeah, I'm picky with my energy

It's just something I can feel (Feel it)  
Feel (I feel it), feel, everybody talks  
But don't ever keep it real (Feel it)
