

## **title**

**Meg Donnelly**

Baby, one more time and I just might lose it  
Got me going out my mind, I don't wanna do this  
Always give you my whole heart and then you abuse it  
So baby, put your headphones on, you can face the music

Boy, you got me looking stupid had the audacity  
You said that you were ready  
Ready for all of me, yeah

How did I know you be one more title?  
Might make your ego go way too high  
You know you're wrong and the reason why  
This won't be a cycle  
Don't be one more title  
Hope you don't turn out to be some guy  
I write about how you waste my time  
Damn

'Cause I won't be lied to, I'm way too jaded  
So don't you go and make no promise  
You'll end up breaking  
If any kind of love catch on  
It's the trust that makes it  
'Cause I won't invest now and end up saying

Boy, you got me looking stupid had the audacity  
You said that you were ready  
Ready for all of me, yeah

How did I know you be one more title?  
Might make your ego go way too high  
You know you're wrong and the reason why  
This won't be a cycle  
Don't be one more title  
Hope you don't turn out to be some guy  
I write about how you waste my time

Waste my time
