

With U

Meg Donnelly

I don't even know what to say
Trying not to look away
'Cause there's
Something that you're making me feel
And what do I do with that

We don't speak the same words
Come from different worlds
But when I saw you dance
I knew there was a chance

I wanna be with you
You're not like the guys I knew
'Cause when I look into your eyes
I know there's something special
Feel so real this time

I wanna kick it with you
I wanna kick it with you
I wanna kick it with you
Now here's the situation

Right now I feel a little lost in translation
And I'm feeling the tension
Got me guessing what you are saying

Passing origami, yeah you really got me
I'm not worried about the future
Man I think I'm really happy

But I wonder what you mean
When you look at me gotta know I feel that
I know you're really shy
I just wanna know what you're thinking

All I know is
We don't speak the same words
Come from different worlds
But when I saw you dance
I knew there was a chance

I wanna be with you
You're not like the guys I knew
'Cause when I look into your eyes
I know there's something special
Feel so real this time

I wanna kick it with you
I wanna kick it with you
I wanna kick it with you

I'm tryna kick it with you, kick it, kick it
Something 'bout your style
Let me show you how I'm different
Different bring you to my town
In a fast car, baby baby, we could take a ride
Let's go ride 'round the city

Baby this could take a while

Never seen nobody like you
I got feelings for you, baby
I'm a pull up in a 'rari
Drop the ceiling for you, baby
When we pull up to the party
Everybody going crazy
Everybody know you pretty
Everybody, you my baby

Yeah, I ain't tryna waste your time, baby
I-I love that you so fly, yeah

I wanna be with you
You're not like the guys I knew
'Cause when I look into your eyes
I know there's something special
Feel so real this time

I wanna kick it with you
I wanna kick it with you
I wanna kick it with you

I wanna kick it with you
