

Every Lie

Meg Mac

Every lie that went down then
How many had I not found then
And if every lie that went down then
I'll play the fool cause I found them
IT'S JUST YOUR BONES KEEPING
IT'S JUST YOUR BONES KEEPING
That's the sound of the sadness moving in
I can't stand the state of my skin
It burns now, it burns now
How you sleep in the bed you're keeping warm
It feels like I'm already gone now
Every lie that went down then
How many had I not found then
And if every lie that went down then
I'll play the fool cause I found them
IT'S JUST YOUR BONES KEEPING
IT'S JUST YOUR BONES KEEPING
Don't forget that I've heard this one before
I can't stand to face anymore
It burns now, it burns now, it burns now
Every lie that you kept behind that door
Well, I'm here in it now that I'm gone now
Every lie that went down then
How many had I not found then
And if every lie that went down then
I'll play the fool cause I found them
IT'S JUST YOUR BONES KEEPING
Release my soul beneath my naked bones
Release my soul beneath my naked bones
Release my soul beneath my naked bones
Release my soul beneath my naked bones
It burns, it burns now
It burns, it burns now
IT'S JUST YOUR BONES KEEPING
IT'S JUST YOUR BONES KEEPING
