

# Matter of Time

Meg Mac

I'm not great and I hate that I can't say it  
So I fake it until the day I make it  
Look to me and I'll answer all your questions  
Don't look around or they'll know that you're distracted

I'll make it, I'll make it, I'll make it, I'll make it  
Amazing, amazing, amazing, amazing  
I'll make it, I'll make it, I'll make it, I'll make it  
It's only a matter of time

How long will it take for my silence to break?  
'Cause it's holding me down while its hands cover both of my eyes  
It's only a matter of time  
I long for a day I can look at my face  
Without seeing the pain, try to hide all that I've sacrificed  
It's only a matter of time  
It's only a matter of time

Packed my bags like I'm on my way to Heaven  
It's like I'm marching down that road to see him  
I'm still a hero even though I'm failing  
I was flying so high but now I'm collapsing

I'll make it, I'll make it, I'll make it, I'll make it  
Amazing, amazing, amazing, amazing  
I'll make it, I'll make it, I'll make it, I'll make it  
It's only a matter of time

How long will it take for my silence to break?  
'Cause it's holding me down while its hands cover both of my eyes  
It's only a matter of time  
I long for a day I can look at my face  
Without seeing the pain, try to hide all that I've sacrificed  
It's only a matter of time  
It's only a matter of time

Paradise won't kill me, no  
So wake me up and we'll see  
Paradise won't kill me, no  
Wake me up and we'll see  
It's only a matter of time

How long will it take for my silence to break?  
'Cause it's holding me down while its hands cover both of my eyes  
It's only a matter of time  
I long for a day I can look at my face  
Without seeing the pain, try to hide all that I've sacrificed  
It's only a matter of time  
It's only a matter of time
