

## Turning

Meg Mac

Came to me in the middle of the night  
Said I am your mother, I am your father  
Sleeping in the dark, you know I saw everything  
I saw everything  
And it's turning the road, we don't even know it

We could have had, could have had it all in  
Couldn't wait till we were older  
Built this world on a false love  
Got this world on a false love  
We could have had, could have had it all in  
Couldn't wait till we were older  
Built this world on a false love  
Got this world on a false love

Turn your back, turned your back  
It's only gonna make you stronger  
Keep you away forever  
And bring you back, back from the deck  
Oho, oho, why does it make us crazy  
And it's sending a world  
And we don't even know it

We could have had, could have had it all in  
Couldn't wait till we were older  
Built this world on a false love  
Got this world on a false love  
We could have had, could have had it all in  
Couldn't wait till we were older  
Built this world on a false love  
Got this world on a false love  
Love

You know I saw everything  
I saw everything  
Caught in a world with its false love  
Caught in a world with its false love  
Caught in a world with its false love  
Caught in a world with its false love

We could have had, could have had it all in  
Couldn't wait till we were older  
Built this world on a false love  
Got this world on a false love  
We could have had, could have had it all in  
Couldn't wait till we were older  
Built this world on a false love  
Got this world on a false love
