

# Understand

Meg Mac

There's a target on my back  
There's a bullet in my name  
Tearing holes in my good life  
And I will never be the same

And now everywhere I go  
And whenever I'm awake  
You can see it in my eyes  
That I made a big mistake

Give me a chance and you  
You will understand

You will understand  
Just give me a chance  
You will understand  
You will understand  
Just give me a chance

So I try to just forget  
But it'll find me in my bed  
I will never get to sleep  
Can't get it out of my damn head

I see visions everyday  
I see my head go up in flames  
But when I look around to see  
Who lit the fire, it was me

Give me a chance and you

You will understand  
Just give me a chance  
You will understand  
You will understand  
Just give me a chance

You will understand  
Give me a chance  
You will understand  
Give me a chance  
You will understand  
Give me a chance  
You will understand  
Give me a chance

You will understand  
You will understand

You will understand  
Just give me a chance  
You will understand  
You will understand  
Just give me a chance

You will understand babe  
You will understand

You will understand  
Just give me a chance

You will understand  
Just give me a chance

You will understand  
Just give me a chance...
