

Make a Shadow

Meg Myers

Wide awake, wide awake, it all gets so hard
Wide awake, wide awake, it all gets so hard
Oh oh oh
Will you take my hand and make a shadow?
Will you take my hand and make a shadow?
Oh oh oh

Little, I want to be a kid again
Little, don't tell me this is home

I'm only only in the only only in the in the shadows
I'm only only in the only only in the in the shadows
My heart is fire, my heart is young
I'm only only in the only only in the in the shadows

Run away, run away, let's sleep tomorrow
Run away, run away, let's sleep tomorrow
Oh oh oh
When the city floods, we'll build our castle
When the city floods, we'll build our castle
Oh oh oh

Little, I want to be a kid again
Little, don't tell me this is home

I'm only only in the only only in the in the shadows
I'm only only in the only only in the in the shadows
My heart is fire, my heart is young
I'm only only in the only only in the in the shadows

We, we, we, we, we, we, we, we
We gotta wait inside the shadow, don't get old, don't get old
We gotta wait inside the shadow, don't get old, don't get old

We gotta wait inside the shadow, don't get old, don't get old
We gotta wait inside the shadow, don't get old, don't get old

I'm only only in the only only in the in the shadows
I'm only only in the only only in the in the shadows
My heart is fire, my heart is young
I'm only only in the only only in the in the shadows
