

Set the World Afire

Megadeth

Red flash clouds choking out the morning sky
They said it'd never come
We knew it was a lie
All forms of life die now the Humans all succumb
Time to kiss your ass goodbye the end has just begun
Distorted figures walk the street, it's 1989
Weeds once underneath your feet have grown to vines
Bodies melted like a candie, a land without a face
Notime to change your faut, no time left, it's too late
The aresenal of Megadeth can't be rid they said
And if it comes, the living will envy the dead
Racing for power, and all come in last
No winning first stone cast
This falsehood worldly peace
Its treaties soon will cease
No one will be left to prove that humans existed
Maybe soon the children will be born open fisted
We all live on one planet it will all go up in smoke
Too bad they couldn't see this letal energy
and now the final scene, a golbal darkening
Dig deep the piles of rubble and ruins
Towering over head both far and wide
There's unknown tools for World War 3
Einstein said 'We'll use rocks on the other side'
No survivors set the world afire
