

# This Planet's On Fire (Burn In Hell)

Megadeth

Canceled flights, limousines  
Hustle, bustle, crazy scenes  
First you're here, then you're there  
Pretty soon, then you've been everywhere

Ooh, this planet's on fire  
Ah, Satan's desire  
We've seen the rise, we'll see the fall  
He's here to see us all  
Burn in Hell

Well, time ticks away, faster, faster  
You run so fast; you forget what you're after  
Make a deal to sell your soul  
Just to find out, baby, it's been sold  
"Ha!" you sucker! Hey?!

Ooh, this planet's on fire  
Ah, Satan's desire  
We've seen the rise, we'll see the fall  
He's here to see us all  
Burn in Hell  
Burn in Hell

Ooh, this planet's on fire  
Ah, Satan's desire  
We've seen the rise, we'll see the fall  
He's here to see us all  
Burn in Hell

Fine, white lines of crystal light  
Keep us up all day and all night  
Yeah, we're just forgotten boys and girls  
Who thrive on cosmic toys

Ooh, this planet's on fire  
Ah, Satan's desire  
We've seen the rise, we'll see the fall  
He's here to see us all  
Burn in Hell  
Burn in Hell
