

# Alive Forever

Megan Hilty

Hey, Helen

What?

I think I'm your person

Oh, no

Admit it, Helen  
You need me

Oh, God

You like me

I'd like you to stop

You love me  
Enough time has passed, let's swallow our pride  
And try this again with time on our side  
'Cause through all the years of fighting  
The baiting and switching  
The bitching and biting  
I've never stopped thinking of you  
Isn't that what people who found each other's person do?

So that was then  
This is now  
I can fix your peeling  
Wow, that's bad  
And I know that there are things we can't undo  
But you've got me, and I've got glue  
If we're doomed to walk the earth  
Maybe I can walk with you  
And Hel, for what it's worth I'm sorry too  
What? What did I do?

I can't believe you  
You finally said it  
I never thought you'd budge, I swore  
Mad, I forgive you, can we forget it?  
'Cause I don't have the core strength  
To hold on to grudges anymore  
You make me crazy

Thanks for the praise

You're a narcissist

Well, more sadistic, Hel

But here's my cold heart, on display

Oh, I've got something to say

I know we're toxic

Yes, we're toxic

But as the clocks tick, I realize

As time goes by

I'd rather be miserable with you and I won't go away

I'll pinch your ass

I'll help you stay alive forever

Alive even after the world of regard is gone

When you need your face redrawn

You don't have to fear

I'll be here, now until forever

It would be healthier to leave you

And no longer be friends

'Cause our hatred escalated into murder

But I don't have the heart to grieve you

So can we start again?

Look at you

Look at you

No, look at you

Okay, let's look at me

We can face eternity

Just you and me, both damned to be

Alive, forever

Alive 'til the stars fade away in an endless night

If I can't find the way, I'll follow your light

By your side

By your side

We'll survive

We'll survive

Still alive

Still alive

Still alive

Forever

And ever

Alive

Forever

Alive
