

# A Little Drunk

Megan & Liz

Have a drink at the bar with a couple friends  
Hey, isn't it a boys night out?  
It's been a long week and I bet you need  
To order up another round

And even though it's Friday, I can go it my way  
I don't need to go downtown

Alcohol runnin' through your veins,  
Maybe you're thinkin' my name

Don't say "I've had enough"  
Go ahead and have a little too much  
It's okay to be a lush  
Baby, if it helps you think of us  
I'll take what I can get  
Even if tomorrow you'll forget  
With you, to get a little love,  
You gotta get, gotta get a little drunk

Show me a sign that you want me  
'Cause boy, you know I want you to  
45% bottle of whiskey still ain't 100 proof

Boy, do you love me or do you just love me  
Being there to love on you?  
Oh

Alcohol runnin' through your veins,  
Maybe you're thinkin' my name

Don't say "I've had enough"  
Go ahead and have a little too much  
It's okay to be a lush  
Baby, if it helps you think of us  
I'll take what I can get  
Even if tomorrow you'll forget  
With you, to get a little love,  
You gotta get, gotta get a little drunk

Oh, a little drunk

When you're drunk, you speak your heart  
If you sobered up, would we fall apart?

Oh

Don't say "I've had enough"  
Go ahead and have a little too much  
It's okay to be a lush  
Baby, if it helps you think of us  
I'll take what I can get  
Even if tomorrow you'll forget  
With you, to get a little love,  
You gotta get, gotta get a little drunk
