

## Big Kids

Megan & Liz

There you are, home alone, on the floor in your empty apartment  
Always late, dirty plates, had money for the week but you already spend it out  
You're so well, you're so well

We're the ones growing up, hey  
We're the ones getting out  
'Cause we're the big kids, we're the big kids now  
We're the one moving out, hey  
We're the ones breaking down  
'Cause we're the big kids, we're the big kids now  
Hands up if you're a big kid  
Yeah, we're just trying to make it  
Hands up if you're a big kid  
When did we become the big kids now?

He's the one who left home on his own, knew he'd do big things  
She's the one staying home with that boy, just waiting on the ring  
And here's to you if you're somewhere in between  
You don't know where you are, but you're right where you should be

We're the ones growing up, hey  
We're the ones getting out  
'Cause we're the big kids, we're the big kids now  
We're the one moving out, hey  
We're the ones breaking down  
'Cause we're the big kids, we're the big kids now  
Hands up if you're a big kid  
Yeah, we're just trying to make it  
Hands up if you're a big kid  
When did we become the big kids now?

Brand new starts  
Broken hearts  
A little bit fine, but a little bit falling apart

We're the ones growing up  
We're the ones getting out  
'Cause we're the big kids, we're the big kids now

We're the ones growing up, hey  
We're the ones getting out  
'Cause we're the big kids, we're the big kids now  
We're the one moving out, hey  
We're the ones breaking down  
'Cause we're the big kids, we're the big kids now  
Hands up if you're a big kid  
Yeah, we're just trying to make it  
Hands up if you're a big kid  
When did we become the big kids now?
