

## Good

Megan & Liz

Been called a liar, like problematic  
Into myself, attention addict  
Don't just like trouble but I'm good at it  
Good at it  
I won't pretend I don't deserve it  
So I'll turn it down, reduce the static  
You're looking at me like a bad habit  
I'm looking at you, gotta have it

Promise I'll be good, good  
Like I said I would, would  
On my best behavior, save it all for later  
Promise I'll be good, good  
So good

You talk about your hesitations  
I like to keep it complicated  
Touching on all of your temptations  
But I don't hear you complaining  
Let's not pretend you ain't about it  
Don't try to find a way around it  
I let you hide it like a bad habit  
Won't tell nobody about it

Promise I'll be good, good  
Like I said I would, would  
On my best behavior, save it all for later  
Promise I'll be good, good  
So good  
Good, good  
On my best behavior, save it all for later  
Promise I'll be good, good  
So good

[Myles Parrish:]  
Yeah, you know just what to say  
You got all the right words  
I was trying to behave  
How could I with them curves?  
Threw out the bait and I took it, I'm hooked  
Saw in the way that you gave me that look  
I knew you was bad but baby, I'm shook  
Don't play no games, tell me what's good  
Ay, don't sell it to me, girl, I need to mention, mention  
You and I both been known for a minute, yeah  
You don't talk that talk, can you back up on it?  
Ay, keep your promise

Promise I'll be good, good  
Like I said I would, would  
On my best behavior, save it all for later  
Promise I'll be good, good  
So good

Promise I'll be good, good  
Like I said I would, would  
On my best behavior, save it all for later

Promise I'll be good, good  
So good  
Good, good  
Good, good  
On my best behavior, save it all for later  
Promise I'll be good, good  
So good
