

# Habit

Megan & Liz

You only smoke when you drink 'cuz it's just what you do  
And you don't think flippin' the switch when you leave the room  
Casually kissin' me naturally I assume, that it's nothing to you

I'm ain't a cigarette when you're having a drink or two  
You can't just turn me on, like a light hanging in your room

Love, it ain't a habit  
When you love someone you act like  
You know, you know how good you have it  
Love, it ain't a habit

Ooo, no flowers, no rocks on my window from out of the blue  
All the nights that I'd wish you'd surprise me and break up the loop  
Automatic, we happen no magic between me and you  
Like there's nothing to lose but here I am losing it 'cuz

Love, it ain't a habit  
When you love someone you act like  
You know, you know how good you have it  
Love, it ain't a habit

I ain't going through the motions  
I want your emotions and the magic  
So baby stop phonin' it in  
I ain't going through the motions  
I want your emotions and the magic  
So baby stop phonin' it in

I'm not a cigarette  
Let me see you put your heart in it  
(Put your heart in it)

Love, it ain't a habit  
When you love someone you act like  
You know, you know how good you have it  
Love, it ain't a habit  
When you love someone you act like  
You know, you know how good you have it  
Love, it ain't a habit

I ain't going through the motions  
I want your emotions and the magic  
So baby stop phonin' it in  
I ain't going through the motions  
I want your emotions and the magic  
So baby stop phonin' it in
