

If You

Megan McKenna

Sat in silence staring at you from the passenger seat
It's the second time around this week that you stopped talking to me
My head is saying I should leave
But my daddy always says my heart is worn on my sleeve
Holding onto something I believe
Just give me one more night you see

If you want love, it's gonna get tough
It's gonna break your heart, and mess you up
It's gonna make you high and low sometimes
You're gonna have to learn to apologise
And if you want love you've gotta give enough
Let down all the walls that you've been busy building up
No one said it was easy
It's never easy when it comes to us

If you want love
If you want love

You're saying that you're done, slamming down the phone and walking away
Then you're telling me you're sorry that you made me cry, and never hurt me again
My head is spinning, don't know why
One minute say you love me then you're saying goodbye
I'm, too tired to cry too tired to fight
Just give me one more night

If you want love, it's gonna get tough
It's gonna break your heart, and mess you up
It's gonna make you high and low sometimes
You're gonna have to learn to apologise
And if you want love you've gotta give enough
Let down all the walls that you've been busy building up
No one said it was easy
It's never easy when it comes to us

If you want love
If you want love

No one's gonna love you like I love you
And no one's gonna care like I do
'Cause the grass ain't greener
The feeling no deeper
(No one's gonna kiss you like I kiss you)

If you want love, it's gonna get tough
It's gonna break your heart, and mess you up
It's gonna make you high and low sometimes
You're gonna have to learn to apologise
And if you want love you've gotta give enough
Let down all the walls that you've been busy building up
No one said it was easy
It's never easy when it comes to us

If you want love
If you want love
