

## Cloud 9

Megan Moroney

Waitress asked me, "Is Pepsi fine?"  
I wanted a Coke but said "It's more than alright"  
And the rush-hour traffic, no it can't get to me  
The TV's talking, some more bad news  
And the neighbors upstairs always party 'til two  
But who cares, oh well  
I woke up next to you

I'm walking on sunshine, holding your hand  
You're putting stars in my eyes like no one else can  
You get me high high high  
You give me that look, I'm floating on air  
No nothing else matters with your hands in my hair  
I never want to leave where we are now  
It's a long, long way way down  
Down to cloud nine

Gravity's calling, ain't picking up the phone  
This view that I've got is the best that I've known  
I blame you for no rocks in my shoes  
This new altitude  
Baby, I can't lose

I'm walking on sunshine, holding your hand  
You're putting stars in my eyes like no one else can  
You get me high high high  
You give me that look, I'm floating on air  
No nothing else matters with your hands in my hair  
I never want to leave where we are now  
It's a long, long way way down  
Down to cloud nine

You put the blue in my sky  
I'm yours and you're mine  
Oh, what a time to be alive

I'm walking on sunshine, holding your hand  
You're putting stars in my eyes like no one else can  
You get me high high high  
You give me that look, I'm floating on air  
No nothing else matters with your hands in my hair  
I never want to leave where we are now  
It's a long, long way way down  
Down to cloud nine

Down to cloud nine  
I'm yours and you're mine  
Down to cloud nine
