

Energy

Megan Rochell

I can feel your energy
Pulling me in like gravity
And I'm started to lose control

Feel the vibration
Feel the vibration
Feel the vibration
Feel the vibration
Ah, vibe
Feel the vibration
Feel the vibration
Feel the vibration
Ah, vibe

I be here for long
And the night is too young
Baby come on and sees the day
When you're in your pride
No one counts the time
We can dance the night away

I can feel your energy
Pulling me in like gravity
And I'm started to lose control

Feel the vibration
Feel the vibration
Feel the vibration
Feel the vibration
Ah, vibe
Feel the vibration
Feel the vibration
Feel the vibration
Ah, vibe

It's so kinetic energy
It's so kinetic energy
It's so kinetic energy
It's so kinetic energy

I'm a rolling stone so don't want to go home
I just keep on getting closer to you

I can feel your energy
Pulling me in like gravity
And I'm started to lose control

Feel the vibration
Feel the vibration
Feel the vibration
Feel the vibration
Ah, vibe
Feel the vibration
Feel the vibration
Feel the vibration
Ah, vibe

It's so kinetic energy
It's so kinetic energy
It's so kinetic energy
It's so kinetic energy
