Hero

Megan Rochell

Cause in time
Yes, I'm gonna find the one
I'm gonna find my hero

Do I have to travel all of the world
In order for me to find
A love that's safe and secure?
(Someone tell me)
Am I reaching for the stars?
(No, I can't be)
Cause I know that it's possible

To find somebody to share my life with
Then move in a new crib
And put my whole heart in it
But for now I'm a damsel in distress
And waiting on my hero (hero)
To come along, oh

I dream at night how he comes to me
He appears out the blue, sweeps me off my feet
Something like in the movies but reality
So I'll wait here until he appears to me
Oh my hero

Cause in time
Yes, I'm gonna find the one (the one)
I'm gonna find my hero
Somebody to rescue my heart
Make me feel love (feel love)

He'll come to save the day
I gotta find my hero (oh yeah)
Somebody to rescue my heart (oh yeah)
Make me feel love

Where's my hero?
Where's my hero? (where's my hero?)
I gotta find my hero
Where's my hero? (my my hero)
Where's my hero? (my my hero)

I don't need a man with an s on his chest
Cause I know he ain't real
(Don't want a man of steel)
I just want a man with heart

I'm tryna find me a man
That holds me down
Somebody that understands
What love's about
Then I'll show you my hero
Then I'll show you my hero

I dream at night how he comes to me (comes to me)
He appears out the blue, sweeps me off my feet (sweeps me off my feet)
Something like in the movies but reality (my reality)

So I'll wait here until he appears to me
Oh my hero

Cause in time
Yes, I'm gonna find the one (find the one)
I'm gonna find my hero (find my hero, yeah)
Somebody to rescue my heart (I wanna feel love)
Make me feel love

He'll come to save the day (he's gonna save me)
I gotta find my hero (gotta find my baby)
Somebody to rescue my heart (oh yeah, oh yeah)
Make me feel love

Where's my hero? (where's my hero?)
Where's my hero? (where's my hero?)
I gotta find my hero
Where's my hero? (where's my hero?)
Where's my hero? (where's my hero? where's my man?)

I keep telling myself that it'll be worth the wait
So don't settle for less than deserved
Don't take a chance, I'll be alright (I'll be alright)

There will come a time
That I've waiting for all my life
He'll be standing there with open arms
Ready to give me all of his love

Cause in time
Yes, I'm gonna find the one (oh, I'm gonna find him)
I'm gonna find my hero
Somebody to rescue my heart
Make me feel love

He'll come to save the day (save the day, help me find my way)
I gotta find my hero (oh yeah)
Somebody to rescue my heart (oh yeah)
Make me feel love

Where's my hero?
Where's my hero?
I gotta find my hero
Where's my hero? (hero)
Where's my hero? (where's my hero?)
