

## Be Country With Me

Meghan Patrick

Baby, let's take a ride  
Down to the countryside  
Where crickets sing a lullaby  
We'll make it our song  
And leave behind the city lights  
Just me, you and the fireflies  
Barefoot on the riverside  
Dance all night long

I'd like to show to you where I come from  
Give me just one night, you'll fall in love  
With the starry nights, the air you breathe, that's who I am  
Baby you'll see, if you come and be country with me

I know a spot up on a hill  
The perfect place where we can build  
Ourselves a home  
Watch the red sunset paint the rest  
Lay my head down on your chest  
Make love til dawn, out here alone

I'd like to show to you where I come from  
Give me just one night, you'll fall in love  
With the starry nights, the air you breathe, that's who I am  
Baby you'll see, if you come and be country with me

I'd like to show to you where I come from  
Give me just one night, you'll fall in love  
I'd like to show to you where I come from  
Give me just one night, you'll fall in love  
With the starry nights, the air you breathe, that's who I am  
Baby, you'll see, if you come and be country with me  
Be country with me
