

## Chaser

Meghan Patrick

I've been seeing you hanging round this bar  
Dragging them boots and your broken heart  
You got a dark cloud shading every neon sign  
I've been sending your way all night

She was your shot for a minute  
Some cheap buzz off the bottom shelf  
Left a bad taste when it ended  
So come on boy I got something that'll help

I'll be the chaser, something sweet to get your mind off her and on t  
o me  
The eraser of a memory, so you can get your lips where they want to b  
e  
Right on mine, cause boy it's time  
To send that hurt on down the line  
I'll be your chaser  
I'll be your chaser  
So take a shot on me

You got plenty of time to turn the night around  
Let's dance up to the bar, you can buy us a round  
That same old sting gonna burn out faster  
But to get it gone you'll have to kiss me after

Lime to your tequila  
The Coca-Cola there on your lips  
I'm right here when you need it  
Cause this time when the whiskey hits

I'll be the chaser, something sweet to get your mind off her and on t  
o me  
The eraser of a memory, so you can get your lips where they want to b  
e  
Right on mine, cause boy it's time  
To send that hurt on down the line  
I'll be your chaser  
I'll be your chaser  
Take a shot on me, yeah

I'll be your lime to your tequila  
The Coca-Cola kiss on your lips  
I'm right here when you need it  
Cause this time when the whiskey hits

I'll be the chaser, something sweet to get your mind off her and on t  
o me  
The eraser of a memory, so you can get your lips where they want to b  
e  
Right on mine, cause boy it's time  
To send that hurt on down the line  
I'll be your chaser

I'll be your chaser  
Take a shot on me, mmm yeah  
So take a shot on me
