

# Liar Too

Meghan Patrick

(Cause I swore off us, and I swore off you  
And I swore I wouldn't let ya make me)

Yeah I gotta hand it to you  
You got a way with words  
And what makes it worse  
They never tell the truth  
Yeah I know they never do

But when I see those eyes and that smile  
They tell a different story  
Every damn time I just can't ignore it

Cause you're bout to buy me the right drink  
You're bout to play me the right song  
You're bout to say all the right words  
You know are gonna make me do  
What I know is wrong  
It's gonna feel good until it don't  
Once you've got what you came for  
When it's all said and done  
We're both lying in the room  
I'm no better than you  
Cause I swore off us, and I swore off you  
And I swore I wouldn't let ya make me a liar too

(Cause I swore off us, and I swore off you  
And I swore I wouldn't let ya make me)

This ain't a new thing  
It's the same old lies  
Just a different night  
But you're selling me  
On the you I wish you could be

Maybe I only want it it cause I can't have it  
Maybe you're just my kryptonite habit

Cause you're bout to buy me the right drink  
You're bout to play me the right song  
You're bout to say all the right words  
You know are gonna make me do  
What I know is wrong  
It's gonna feel good until it don't  
Once you've got what you came for  
When it's all said and done  
We're both lying in the room  
I'm no better than you  
Cause I swore off us, and I swore off you  
And I swore I wouldn't let ya make me a liar too

Maybe I only want it cause I can't have it  
Maybe you're just my kryptonite habit

You're bout to buy me the right drink  
You're bout to play me the right song  
You're bout to say all the right words

You know are gonna make me do  
What I know is wrong  
It's gonna feel good until it don't  
Once you've got what you came for  
When it's all said and done  
We're both lying in the room  
I'm no better than you  
Cause I swore off us, and I swore off you  
And I swore I wouldn't let ya make me a liar too  
(Cause I swore off us, and I swore off you  
And I swore I wouldn't let ya make me)  
A liar too  
(Cause I swore off us, and I swore off you  
And I swore I wouldn't let ya make me)  
A liar too  
(Yeah I swore off us, and I swore off you)  
A Liar too  
(Yeah I swore off us, and I swore off you)  
A liar too
