

The Buzz

Meghan Patrick

Sometimes life
Can feel stone cold sober
Make you feel like a misfit
Make you feel like a loner
You just need a little fire in your heart
Make your blood run warmer
Sometimes life
Can feel stone cold sober

But there's a buzz from the spotlight
There's a buzz comin' from the Marshall stacks
There's a buzz in the crowd, gettin' loud
There's a buzz in my whiskey glass
There's a high you only get
From doing what you love
Yeah tonight I'm feeling the buzz

I ain't never been the kind
To do what they told her
One day I want to wake up
When I'm older
With a hell of a "did it my way
Good time" hangover
'Cause I ain't never been the kind
To do what they told her

But there's a buzz from the spotlight
There's a buzz comin' from the Marshall stacks
There's a buzz in the crowd, gettin' loud
There's a buzz in my whiskey glass
There's a high you only get
From doing what you love
Yeah tonight I'm feeling the buzz
I'm feeling the buzz, yeah yeah
I'm feeling the love

But there's a buzz from the spotlight
There's a buzz comin' from the Marshall stacks
There's a buzz in the crowd, gettin' loud
There's a buzz in my whiskey glass
There's a high you only get
From doing what you love
Yeah tonight I'm feeling the buzz
Mmh, mmh, mmh
Yeah I'm feeling the buzz
