

# We Got It All

Meghan Patrick

We got two bars, cash only still  
We got that old farm that grandpa built  
Teenage mothers that love their babies  
A backroom preacher still trying to save me

We got a spirit that won't compromise  
We pray for peace but ain't scared to fight  
We love what we love and try not to hate  
We got fifty years strong and a high forest rate  
We got it all right here  
It ain't always perfect but it's perfectly clear  
Until this world quits turning  
We got each other and we got it all right here

We got a quarterback going long  
Soldier's mama still holding on  
A diner waitress with a heart of gold  
A county sheriff that loves busting dope, yeah

We got a spirit that won't compromise  
We pray for peace but ain't scared to fight  
We love what we love and try not to hate  
We got fifty years strong and a high forest rate  
We got it all right here  
It ain't always perfect but it's perfectly clear  
Until this world quits turning  
We got each other and we got it all right here

A few of us are stuck here  
A few of us just love it here  
A few of us are stuck here  
A few of us just love it here

We got a spirit that won't compromise  
We pray for peace but ain't scared to fight  
We love what we love and try not to hate  
We got fifty years strong and a high forest rate  
We got it all right here  
It ain't always perfect but it's perfectly clear  
Until this world quits turning  
We got each other and we got it all right here

Mmh, we got it all  
We got it all right here  
We got it all
